ACADEMIC ACHIEVEMENT CENTER (AAC)

The Academic Achievement Center offers credit courses to develop basic skills or enrich present skills in a self-paced learning lab environment. Students do not need instructor permission to enroll in AAC courses.

Note: Students enrolled in non-online AAC classes that indicate the time is to be arranged (TBA) should report to the Academic Achievement Center, LIB 227, during the first week of the semester or within one week of enrollment. Though self-paced, all coursework must be completed by the end of the 8 week semester. A JCCC student ID is required.

Prerequisite: EMS 128 or equivalent training as determined by the EMS department (military, other medical or fire department, verification of training will be required), associates degree (transcripts required). Requirement: Department approval																					
Note: EMS 130 001 is a hybrid course. Approximately 56% of the class is offered in a traditional face-to-face format, and 44% is offered in an on-line web-delivered format. Additionally, as part of the hybrid content, approximately 32 hours of lab time will be offered in a flexible student-scheduled format. While this approach provides significant flexibility for the student, and fewer trips to campus, the overall coursework and time commitment is the same as for a traditional EMT																					

class. For more information contact the instructor, Bob Parker, at bparker@jccc.edu.

MATHEMATICS (MATH)

The Math Resource Center, CLB 212, provides tutorial support on a drop-in basis to all JCCC math students. The MRC supervisor and peer tutors are available to help you solve math problems individually and to recommend resources such as videotapes. Assignments in some math courses require the use of the computers in the MRC Computer Lab. Contact the center at 913-469-8500, ext. 4242, or at mrc@jccc.edu. Fall hours are 7am to 9pm Monday through Thursday, 7am to 4pm on Friday, 11am to 4pm on Saturday and 12pm to 4pm on Sunday. Visit the Math Resource Center Web page at www.jccc.net/mathresourcecenter.

Late Registration Information

If you plan to enroll in classes at JCCC for fall 2011, here is information you'll need to know about late registration and late-start classes:

Is late enrollment allowed?

No. Students who wish to enroll in a course must do so before the first day the course meets. Students may not enroll on or after the first day a course begins, regardless of what time of day the class meets. No late enrollment is allowed.

Will I be able to add a class?

Once the semester begins, you will not be able to add to your schedule a class that has already begun. However, you will be able to add a class that begins later in the semester.

If I can't enroll late, what should I do?

Enroll early! Enrolling early means you will get the best schedule and the best instructor match, and you'll be in class on the first day. Research shows that students who enroll after a class has already started usually don't perform well in that course. By enrolling early, you'll be positioned for a positive start to the semester.
