After you connect to the web with your custom browser and you have loaded this default home page you will need to minimize the browser window and open the version of IE that came with your computer. You may initiate the use of that version by selecting the IE icon on your desktop. If you do not see the icon on your desktop then please follow the directions in the following link http://www.jccc.net/home/download/11528/StandardInternetExplorer.pdf |
