All UMKC undergraduate students must complete general education requirements. The UMKC General Education Core (UMKC Core) curriculum is designed to provide knowledge and skills that are important for all students, no matter their major or field of study.

Starting Fall 2018, new incoming transfer students may be eligible to complete either the UMKC Core or Core 42 general education curriculum.

Transfer Students with a Completed Core 42 OR Associate of Arts Degree
- Students transferring to UMKC after first completing either the Core 42 OR an Associate of Arts degree from any regionally accredited college or university will have also met all UMKC general education requirements.

Transfer Students with General Education Coursework in Progress
- Students transferring to UMKC with at least twelve (12) post-high school college credit hours but without the completed Core 42 or an Associate of Arts Degree may have the option to complete either the UMKC Core or Core 42.
- Transfer guides are built based on the optimal general education curriculum to create your shortest path to graduation from UMKC.
- Your advisor will review your transfer credits with you prior to the end of your first semester at UMKC to help you determine which general education curriculum best suits your degree plan and moves you closest to graduation.

Core 42 Exempt Programs
- Students who complete CORE 42 will meet the general education requirements for most liberal arts and sciences degrees at UMKC. However, general education requirements for some degrees – including education, engineering and nursing – differ due to professional licensing and other requirements. For these programs it may not to the student’s advantage to complete the Core 42 curriculum because Core 42 likely adds hours to the student’s individual plan of study to complete their UMKC degree. To avoid adding time and cost to the student’s UMKC experience, transfer students are encouraged to complete the UMKC Core for the following majors:

Civil Engineering, Bachelor of Science
Middle School Education, Bachelor of Arts (all emphasis areas)
Dance, Bachelor of Fine Arts
Music Education, Bachelor of Music Ed (both emphasis areas)
Early Childhood Education, Bachelor of Arts
Music Performance, Bachelor of Music (all instruments)
Electrical & Computer Engineering, Bachelor of Science
Music Composition, Bachelor of Music
Elementary Education, Bachelor of Arts
Nursing (Pre-Licensure program only), Bachelor of Science
Jazz Studies, Bachelor of Music
Secondary Education, Bachelor of Arts (all emphasis areas)
Mechanical Engineering, Bachelor of Science
