

The baccalaureate program in nursing at Washburn University is designed to prepare students as professional nurses. The focus of the program is the study of the individual and family life process from conception through aging, in varying stages of health within the context of community. The nursing curriculum builds upon and augments courses in the humanities and the natural and social sciences and provides for application of this general education throughout the nursing major. Emphasis is on the development of the student as an integrated professional person. The BSN program is designed to be completed in 120 credit hours over 4 years.
