ANT/BIO/CMM 2600

Planet Earth Course

3 Credit Hour
Blended Honors Course
ANT/BIO/CMM 2600

Planet Earth: Connecting Critical Topics in Science, Culture and Mass Media

Co-taught by Professors Shannon Bessette, Becky Nystrom and Deborah Lanni
Examples of Critical Issues

- Biodiversity Threatened and Extinction
- Mainstream and Radical Environmental Perspectives
- Population, Affluenza, and Poverty
- Consumerism and Waste
- The Wonder of Water
- Food Choice and Food Security
- Climate Change and Energy Choices
- Environmental News Reporting and Advertising
- World Views
The Science Behind the Issues

How Humans Impact and Are Impacted by the Issues

How Media Communicates (or not) the Issues
It was a fabulous experience! I greatly enjoyed observing the transformational impact the course had on the students, and I was awed by the passion conveyed......
