

RUFFALO NOEL LEVITZ STUDENT SATISFACTION INVENTORY

JOHNSON COUNTY COMMUNITY COLLEGE

SPRING 2025

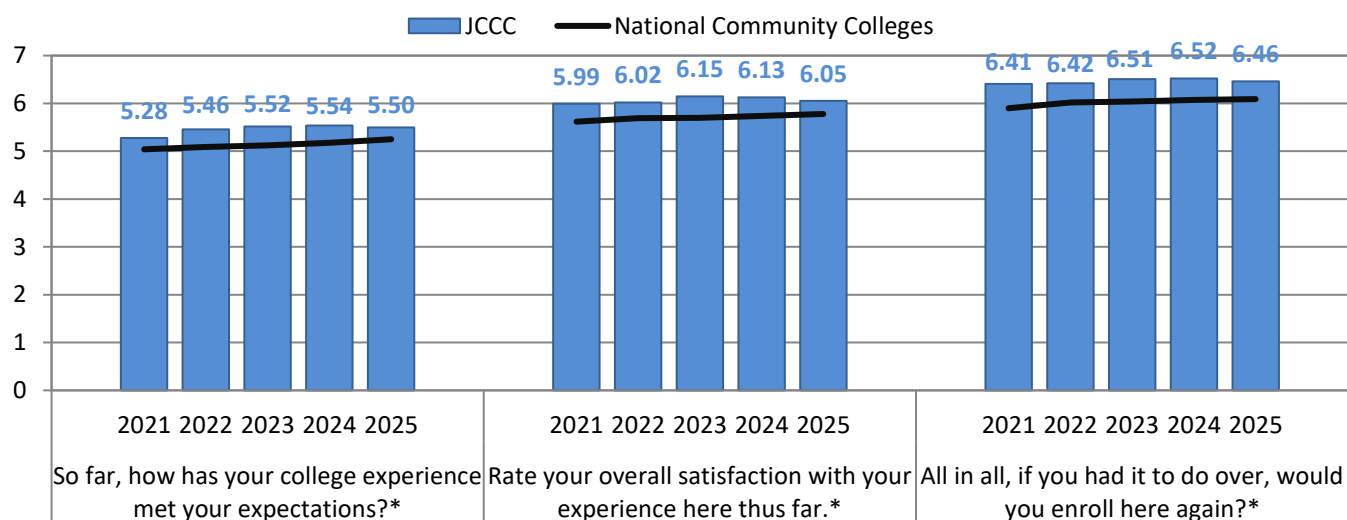

Johnson County Community College first administered the Ruffalo Noel Levitz Student Satisfaction Inventory (SSI) to students during the spring 2000 semester and administered it annually thereafter through 2004. After the 2004 survey cycle, JCCC began administering the Inventory biennially through the spring 2014 semester; the college then returned to administering the SSI on an annual basis except for the 2020 spring semester when the survey was not administered due to the pandemic. During the spring 2025 semester, the SSI was administered online to 6,346 JCCC students. In total, 591 surveys were completed. The national community college group contains 85,799 records from 137 two-year institutions and includes surveys completed between the fall of 2022 through the spring of 2025.

The Student Satisfaction Inventory contains 70 items grouped into 12 scales. For most of the items, students rate the importance of the item and how satisfied they are with the item at their institution. All items are rated using a 1 to 7 Likert scale, with 7 being high. Performance gap means are then calculated by taking the difference between the importance rating and the satisfaction rating. Small gaps indicate students' expectations are being met while large gaps indicate room for improvement.

Major findings are highlighted in the following bullet points and figures; summaries for the 12 scales appear on the following pages in descending order of importance as rated by students.

OVERALL SATISFACTION: These three summary items provide a good bottom-line overview of how students feel about their overall experiences at the College.
