Comments:

Interior Design is an Associate of Applied Sciences degree program only, and as such, is not intended to meet any initial state licensure or certification requirements in the states that have mandatory or voluntary registration or certification requirements. Some states have no requirements and others defer to professional organizations. Students may be able to transfer to another institution to pursue a bachelor's degree that may lead to licensure or certification opportunities. JCCC encourages interested students to confirm requirements for any states in which they may wish to practice. Additionally, visit the program page at the JCCC website for examples of jobs that can be obtained with an Interior Design, Associate of Applied Sciences degree.
