I. Budget Guidelines & Calendar

JOHNSON COUNTY COMMUNITY COLLEGE PRELIMINARY BUDGET GUIDELINES **APPROVED DECEMBER 15, 2022**

1) Unencumbered Cash Balances

Unencumbered cash balances will be maintained in accordance with the Cash Reserves Policy 210.07

2) Assessed Valuation & Property Tax Levy

Johnson County assessed valuation is estimated to increase 5%. The College's mill levy rate will remain flat at 8.6 mills. An estimated tax delinguency rate of 2% will be used.

3) Enrollment

Credit hour enrollment will remain flat with the 2022-23 budgeted credit hours.

4) Tuition Cost per Credit Hour

Tuition rates for FY 2023-24 will remain the same as the 2022-23 rates.

5) State Aid

The budgeted state operating grant revenue for FY 2023-24 will be equal to the actual amount received in FY 2022-23.

6) Salary and Benefits Budgets

An average 2.75% across the board salary increase will be budgeted for faculty and staff, pursuant to the Master Agreement with the Faculty Association. Salary budgets will include support for implementation of the new career laddering program, internal equity and market adjustments. The number of budgeted faculty and staff positions will be informed by Instructional Program Review and Administrative & Service Area Reviews. Positions may be reallocated between departments, and investments in new positions may be recommended based on opportunity for program growth.

7) Staff to Recommend Operating Budget Priorities

College staff will recommend operating budget priorities for consideration. These recommendations will be informed by ongoing planning and assessment efforts, including the College's 2021-2025 Strategic Plan, Instructional Program Review and Administrative & Service Area Reviews. All budgeted line items will be supported by the appropriate justification.

8) Base Budgets for Operating Budgets

The two previous prior years and the current year-to-date actual results will serve as the base budgets for the FY 2023-24 operating budgets.

9) Capital Budgets - General Fund

The General Fund Capital budget will include allocations for approved capital and other remodel projects. Replacement of technology, furniture and equipment will be based on applicable replacement cycles.

10) Debt Service - General Fund

The General Fund budget will include \$3.7M for principal & interest due on the \$50 million Series 2017 Certificates of Participation.

11) Capital Budgets - Capital Outlay Fund

The Capital Outlay Fund budget will include revenue from the .5 mill tax levy. Budgets will be established for repairs, maintenance and capital projects.

Budgeted Use of General Fund Reserves in FY 2023:

The FY 2023 budget proposed expenses in excess of revenues of approximately \$14 million. This was largely due to a \$14 million capital allocation for the phased renovation of Science Labs in the SCI, CLB and RC buildings; a multi-year project expected to cost approximately \$40 million and funded through planned expenditure of General Fund reserves.

Use of General Fund Reserves in FY 2022:

The FY 2022 actual expenditures were in excess of revenues by approximately \$6 million. This was largely due to a \$26 million capital allocation for the phased renovation of Science Labs in the SCI, CLB and RC buildings; a multi-year project expected to cost approximately \$40 million and funded through planned expenditure of General Fund reserves.

National Center for Education Statistics Integrated Postsecondary Education Data System (IPEDS) FUNCTION GLOSSARY

Academic Support: A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. GASB institutions include actual or allocated costs for operation and maintenance of plant and depreciation.

Core Expenses: Total expenses for the essential education activities of the institution. Core expenses for public institutions reporting under GASB standards include expenses for instruction, research, public service, academic support, student services, institutional support, operation and maintenance of plant, depreciation, scholarships and fellowships, interest and other operating and non-operating expenses. Core expenses for FASB (primarily private, not-for-profit and for-profit) institutions include expenses on instruction, research, public service, academic support, student services, institutional support, net grant aid to students, and other expenses. For both FASB and GASB institutions, core expenses exclude expenses for auxiliary enterprises (e.g., bookstores, dormitories), hospitals, and independent operations.

FTE of Students: The full-time equivalent (FTE) of students is a single value providing a meaningful combination of full-time and part-time students. IPEDS data products currently have two calculations of FTE students, one using fall student headcounts and the other using 12-month instructional activity.

Institutional Support: A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the IT costs associated with student services and operation and maintenance of plant will also be applied to this function.

Instruction: A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). GASB institutions include actual or allocated costs for operation and maintenance of plant and depreciation.

Other Core Expenses: Other core expenses include scholarships and fellowships, net of discounts and allowances, and other expenses.

Public Service: A functional expense category that includes expenses for activities established primarily to provide non-instructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). GASB institutions include actual or allocated costs for operation and maintenance of plant and depreciation.

Student Services: A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well - being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal administration, and student records. Intercollegiate athletics and student health services may also be included except when operated as self - supporting auxiliary enterprises. Also may include information technology expenses related to student service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support.) GASB institutions include actual or allocated costs for operation and maintenance of plant and depreciation.
