The Architecture Program at JCCC has worked in cooperation with Drury University, within The Hammons School of Architecture, to develop a direct transfer curriculum that meets the goals of the university and our students for the first year of transfer into Architecture. Additional requirements such as GPA score, portfolio, admissions, interview, etc. may also be required for acceptance of the courses and admittance into the program. For more information, please visit <http://www.drury.edu/architecture>.

The Associate of Arts at JCCC satisfies the Drury Core curriculum with the exception of Ethical Foundations, an additional Foreign Language course and two required Engaged Learning experiences, both of which are provided in the context of courses that are already required for the M.Arch degree.

This transfer guide is based on current academic catalogs, and transfer details may change. To assure up-to-date guidance, please contact Dr. Karen Spence, Associate Dean of the Hammons School of Architecture, at [kspence@drury.edu](mailto:kspence@drury.edu)

Notes:

1. *\* All architecture studios must be taken together to equal multiple course equivalents of core architecture studio classes as a whole.*
2. *# Courses may be used for elective credit. Coordinate actual requirements with Hammons School of Architecture.*
3. *Additional JCCC courses may satisfy Drury CORE (general curriculum) requirements or electives. Students considering transferring will be assigned a Drury architecture professor to provide advice about transfer procedures and course selections.*
4. *^ Please check with Drury to find out if electives are needed.*

It is the STUDENT'S RESPONSIBILITY to check for updates to all transfer information. This transfer program is provided as a service and is updated annually. Degree requirements at the four-year colleges are subject to change by those institutions.
