

The Associate of Arts degree (A.A.) at JCCC is a general transfer degree and partners well with the first two years of most bachelor degree programs. Students pursuing the A.A. may select courses that satisfy both the AA degree requirements and lower division requirements for a bachelor’s degree at four-year institutions. The 30 hours of electives within the A.A. allow students to complete additional general education and lower division courses required for specific majors. The A.A. degree requires completion of 60 credit hours; please see [JCCC A.A. degree requirements](#). Meeting with a JCCC counselor is strongly recommended for selection of appropriate courses.

- The College of Liberal Arts and Sciences: KU’s largest academic unit with 53 departments and programs. The minimum number of hours for a BA is 120.
- Credit/No Credit option is not available for any course that may satisfy major or minor requirements.
- Transfer Grades of “D”: Not accepted toward any degree in the College of Liberal Arts and Sciences: BA, or BS.
- **NOTE:** Classes may count for a major requirement and a core requirement but may **NOT** count for 2 different core requirements.

**It is the STUDENT’S RESPONSIBILITY to check for updates to all transfer information. This transfer guide is provided as a service and is updated as needed. Degree requirements at the four-year colleges are subject to change by those institutions. To ensure you have the most accurate up to date information about the program, it is imperative you meet with an advisor at the transfer institution.**

**KU Core Requirements** The KU Core comprises three general education goals and three advanced education goals. The general education goals are best met early in a student’s career. The advanced education goals are most appropriately acquired using the foundation of knowledge gained from the general education goals and progression through the major. Courses can be used to satisfy one Core goal at a time but may satisfy a major requirement and a core goal. Students that complete the A.A. at JCCC meet the KU Core Goals 1-3. To learn more about courses that satisfy the KU Core visit: <https://credittransfer.ku.edu/>

The courses listed below are **REQUIRED** for degrees from the College of Liberal Arts and Sciences. These courses **MAY** be taken to complete the **KU Core**, but if they are not, this additional coursework is necessary to complete degree requirements. Also, students must satisfy the major requirements of the degree they are pursuing (listed below).

**B.A. (Bachelor of Arts) ONLY**

**OR you may take one of the lab sciences indicated in the Laboratory or Field Experience section as fulfilling Goal GE 1.2 – Laboratory or Field Experience section is listed on the next page.**

**Psychology B.A./B.G.S. Please Note:** B.A. students satisfy KU Core Goal 1.2 and the additional quantitative reasoning component in the B.A. degree-specific requirements by taking JCCC MATH 171 and JCCC PSYC 209. JCCC PSYC 209 also counts toward the major. Though B.G.S. students do not have an additional quantitative reasoning component, they must also take both courses as JCCC MATH 171 is the prerequisite for JCCC PSYC 209 and JCCC PSYC 210, which are required for the major.

**Laboratory or Field Experience** - Variable credits. One laboratory science (at least one credit hour) is required for the B.A. degree. Courses that fulfill this requirement will contain the code “LFE” in the course description.
