The Associate of Arts degree (A.A.) at JCCC is a general transfer degree and partners well with the first two years of most bachelor degree programs. Students pursuing the A.A. may select courses that satisfy both the A.A. degree requirements and lower division requirements for a bachelor's degree at four-year institutions. The elective hours within the A.A. allows students to complete additional general education and lower division courses required for specific majors. The A.A. degree requires completion of 60 credit hours. **Meeting with a JCCC counselor is strongly recommended for selection of appropriate courses.**

- If students have completed an AA or AS degree, they are only required to fulfill the Spiritual Development area of the general education requirements.
- Certain majors may require specific classes in the general education core. Students should check the major's specific section of the current MNU catalog for requirements and with a faculty advisor from that department to determine applicability of transfer courses.
- Upper division credit will NOT be given for lower division courses that are transferred in as equivalents to upper division courses.
- Courses from the Learning Center, Academic Achievement Center, and Learning Strategies will not transfer to MNU. These courses are considered remedial or developmental. With special approval from the Kresge Academic Support Center at MNU, required developmental courses at MNU could be waived with satisfactory completion of courses from these areas. No college credit will be granted for these courses.

**This guide covers the following departments, majors and emphasis areas:**

**Accelerated RN-BSN Program**

- **Nursing - RN - BSN**

**It is the STUDENT'S RESPONSIBILITY to check for updates to all transfer information. This transfer guide is provided as a service and is updated as needed. Degree requirements at the four year colleges are subject to change by those institutions. To ensure you have the most accurate up to date information about the program, it is imperative you need with an advisor at the transfer institution.**
