Admission Requirements

The following criteria are considered by the Admission Committee in the selection of students:

- Graduation from high school or the equivalent (GED).
- Completion of a minimum of 36 of 63 semester hours of general education college coursework, including two of the four required natural science courses.
- On track to complete all general education requirements by start of courses (August for fall start; January for spring start). Students who do not meet these requirements by the stated time will forfeit their position in the designated class to which they've been admitted. Admission into one nursing class does NOT confer extended admission into future nursing classes.
- A minimum grade of "C" and a minimum GPA of 2.70 on a 4.0 scale for all General Education Nursing Support coursework.
- All applicants must meet the requirement of either graduating from an accredited high school or earning the equivalent (G.E.D.). (NOTE: Students who are home-schooled must earn G.E.D. to be considered.)

Applicants are considered for admission based on their potential to complete the program, their possession of necessary functional abilities, and their ability to meet the standards to apply for nursing licensure.

Application deadlines:

Fall start - December 1 of the year prior to admission

- Spring start - June 30 of the year prior to admission.
- Application information is available at www.saintlukescollege.edu/admissions/apply/traditional-bsn.
- Admission is selective and fulfillment of minimum criteria does not guarantee acceptance.
- Tuition and fees are approximately \$32,000 for the entire two years; books are additional. Applicants can schedule a time to meet with an admissions representative before or after application.

It is the STUDENT'S RESPONSIBILITY to check for updates to all transfer information. This transfer guide is provided as a service and is updated as needed. Degree requirements at the four year colleges are subject to change by those institutions. To ensure you have the most accurate up to date information about the program, it is imperative you meet with an advisor at the transfer institution.
