Test-optional Admissions Information for 2022-23
• In recognition of the challenges many students have faced in taking the ACT or SAT test during the COVID-19 pandemic, Hesston College has implemented a “test-optional” admissions policy, for applicants who wish to enroll for their first-year of college in the fall 2022.
• Students may still submit ACT or SAT scores for consideration in the application review process. Your Admissions Counselor will explain the benefits of both options.
• Test scores are required for certain academic programs (nursing, aviation, honors program)
• Hesston College continues to thoroughly review a student’s application, transcript(s) and any additional supporting application materials to make an admission decision. If more information is needed, your admissions counselor will reach out to you and let you know about the additional steps.
• Admission may be granted to first year applicants who have an unweighted high school grade point average of 2.5 or above (on a 4.00 scale), and a thorough review of the student’s application, transcript(s) and other supporting application materials.* Applicants who do not meet these criteria will be reviewed by the Admissions Committee; admission may be granted or denied.
