Engineering is a profession in which knowledge of mathematics and natural science is applied to develop ways to utilize the materials and forces of nature for the benefit of mankind. The Bachelor of Science (B.S.) in computer science at Kansas State University is accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>.

General Information Including Grade Requirements:

Students should be aware that only half of the total B.S. degree credits (124 hours) may be earned at a two-year school, at least 30 credit hours must be KSU credit hours, and 20 of the last 30 must be KSU credit hours. Only courses with a grade of A, B or C will be applicable toward engineering degree requirements.

Admissions

After admission to K-State, applicants will be evaluated for admission by the College of Engineering based on cumulative college or university grade point average and courses taken. An overall cumulative GPA of 2.75 on all transfer coursework is required for acceptance into the College of Engineering. It is preferred that transfer applicants are eligible to enroll in or completed the first calculus course in the math sequence for a specific degree program. Applicants will be notified by the College of Engineering about their admission status.

Transfer applications are accepted for all terms. For spring and summer semester admission, all documents must be postmarked by November 1 to receive priority consideration. For fall semester admission, all documents must be postmarked by February 1 to receive priority consideration

IT is the STUDENT'S RESPONSIBILITY TO CHECK FOR UPDATES TO ALL TRANSFER INFORMATION. This transfer guide is provided as a service and is updated annually. Degree requirements at the four-year colleges are subject to change by those institutions.
