The Associate of Arts degree (A.A.) at JCCC is a general transfer degree and partners well with the first two years of these bachelor degree programs. Students pursuing the A.A. may select courses that satisfy both the A.A. degree requirements and lower-division requirements for a bachelor's degree at KU Edwards. The elective hours within the A.A. allow students to complete additional general education and lower-division courses required for specific majors. The A.A. degree requires completion of 60 credit hours. Completion of the JCCC A.A. or A.S. (Associate of Science) degree satisfies KU Core Goals 1, 2 and 3. JCCC degree requirements can be found at: <http://catalog.jccc.edu/degreerequirements/>.

It is possible that additional community college credit hours can be applied toward a bachelor's degree at KU Edwards. Contact your KU Edwards academic success coach for more information on the limits of credit hours to be transferred as it varies by program. **Meeting with a JCCC counselor is strongly recommended for selection of appropriate courses at JCCC.**

Degree Requirements

Students must earn 120 hours for graduation, of which 45 must be upper-division (junior/senior). Community college courses do not transfer as upper-division hours. Thirty of the total 120 hours must be taken at KU. Students must satisfy the KU Core, the BA or BGS degree-specific requirements, all courses in the major, and enough electives to total 120 hours. Major requirements are the same for those doing the BA and BGS, but degree requirements differ.

Applying and Transferring Credits

Transfer students apply at <https://admissions.ku.edu> and should be sure to select the Edwards Campus. Students must have a 2.5 transferable GPA with 24 completed college hours for admission as a transfer. The transferable GPA includes all courses that are normally transferable to KU and all grades earned in those courses. However, only transfer grades of C or higher will count toward KU degree requirements. To see how your credits transfer to KU, visit <https://credittransfer.ku.edu>.

It is the STUDENT'S RESPONSIBILITY to check for updates to all transfer information. This transfer guide is provided as a service and is updated as needed. Degree requirements at the four-year colleges are subject to change by those institutions. To ensure you have the most accurate up to date information about the program, it is imperative you meet with an advisor at the transfer institution.

KU Core Requirements

The KU Core comprises three general education goals and three advanced education goals. The general education goals are best met early in a student's career. The advanced education goals are most appropriately acquired using the foundation of knowledge gained from the general education goals and progression through the major. Courses can be used to satisfy one Core goal at a time, but may satisfy a major requirement and a Core goal. **Students who complete either an Associate of Arts or Associate of Science at JCCC satisfy Goals 1-3.** JCCC students not completing the A.A. or A.S. degree may refer to <https://credittransfer.ku.edu/> or follow the Core recommendations in the major sections below.

Bachelor of Arts (B.A.) Degree-Specific Requirements

Students pursuing the B.A. must meet these specific requirements in addition to completing the KU Core and the major.

1. Quantitative Reasoning (3 Credits): In addition to completing KU Core Goal 1.2 Quantitative Literacy, students completing the B.A. must have a second quantitative course. A list of courses that satisfy this requirement may be found on the KU College Advising and Academic Services website at <https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses>. Courses with JCCC equivalents are listed on page 7 of this guide.
2. Laboratory or Field Experience (Variable Credits): This course must be an academic-credit-bearing laboratory or field experience. This course may be taken in conjunction with a lecture course, but the course combination must contain a laboratory.
3. Writing (6 Credits): Students must complete six credit hours (two courses) of collegiate-writing-level instruction. Students must complete ENGL 101 Composition and ENGL 102/105 Critical Reading and Writing/Freshman Honors English (ENGL 121 Composition I* and ENGL 122 Composition II* at JCCC). Students who place into ENGL 122 at JCCC by examination (and do not have credit for ENGL 121) must complete ENGL 122 and another course meeting [KU Core Goal 2.1](#).
4. Non-English Language Proficiency (Variable Credits): Students must demonstrate fourth-semester proficiency in a single non-English language, OR third semester proficiency in a first non-English language and first-semester proficiency in a second non-English language. Students should check with their JCCC counselor for placement into the appropriate courses.

Bachelor of General Studies (B.G.S.) Degree-Specific Requirements

Students pursuing the B.G.S. must meet these specific requirements in addition to completing the KU Core and the major.

1. Completion of the requirements of a single B.G.S. major AND a secondary field of academic study (a second degree offered by the College of Liberal Arts & Sciences (CLAS) or another KU professional school, a second CLAS major or co-major, a minor offered by CLAS or another school, or two certificates offered by CLAS or another school).
2. Completion of an approved upper-level career preparation course (minimum 3 credit hours total) taken at KU.

Major Information

The KU Edwards Campus offers the following B.A. and B.G.S. programs through the College of Liberal Arts & Sciences. Following are descriptions of the majors with suggested coursework that should be taken as a part of the associate's degree at JCCC.

Law and Society, BA/BGS

Law and Society is an interdisciplinary field that examines how law works in practice in public administration, courts, the non-profit sector, policy, policing, and the justice system. As a field, law and society explores social movements, government practice, and reform. Students with this degree may pursue work in a variety of settings including criminal justice organizations, non-profits, policy think tanks, and political institutions.

Literature, Language and Writing, BA/BGS

A degree in English will help develop the skills of dealing with concepts and abstractions, creativity, and good communication and people skills. The undergraduate degree in literature, language and writing is an excellent base from which to explore career options and good preparation for a variety of advanced degrees in areas such as business or law. Students should complete ENGL 121*, ENGL 122* and a 200-level English course at JCCC. These are prerequisites for the upper-level English courses in the major at KU Edwards. Many 200-level JCCC English courses will satisfy KU Core Goal 3H (see below).

Psychology, BA/BGS

A bachelor's degree in psychology provides undergraduate students with a broad knowledge of psychology to achieve both personal and professional goals. A psychology major can be useful for careers in business, teaching, medicine, nursing, law, social work, counseling, student services, child development, administration or human resources. Some students complete the major to become psychologists themselves. Through program curriculum, students will have a better understanding of human behavior, thinking and emotion.
