The Associate of Arts degree (A.A.) at JCCC is a general transfer degree and partners well with the first two years of most bachelor degree programs. Students pursuing the A.A. may select courses that satisfy both the A.A. degree requirements and lower division requirements for a bachelor's degree at four-year institutions. The 30 hours of electives within the A.A. allow students to complete additional general education and lower division courses required for specific majors. The A.A. degree requires completion of 60 credit hours; please see [JCCC A.A. degree requirements](#). The maximum number of hours from a community college that will be applied toward a bachelor's degree at KU is 64 hours. Meeting with a JCCC counselor is strongly recommended for selection of appropriate courses.

- The Physical Education Plus program prepares individuals to meet requirements for a physical education teaching endorsement in the state of Kansas and prepare them to pursue endorsement in an additional secondary field or complete a minor in another academic area such as; Health, Middle-level Math, Middle-level Science, English, Speech/Theater, Psychology, Sport Management, or Business.
- Students will be considered for transfer into the PE Plus program (from another institution or academic program) if they are admitted to KU, declare PE Plus as their major, and receive advisor approval verifying that they have met the following criteria:
 - A GPA of at least 2.75 from a post-secondary institution or other academic program, no test scores required or regardless of test score submitted AND
 - Transfer grades of "C-" or above. See an SOEHS advisor for course substitutions.
- No grade lower than a "C" is acceptable in English, Communication Studies, or Mathematics. Minimum grades are also required in some specific designated PE Plus courses.
- A maximum of 64 hours may be transferred to KU from community colleges. Students should be aware that 45 junior/senior credit hours are required for completion of the bachelor's degree; 30 of those hours must be at KU; and community college courses do not transfer as junior/senior hours.
- Only 6 hours of Credit/No Credit is allowed before a student is admitted into the School of Education and Human Sciences. Once admitted, a student cannot take a class Credit/No Credit for any program requirement.
- Minimum total hours for graduation is 120.

KU Core Requirements

The KU Core comprises three general education goals and three advanced education goals. The general education goals are best met early in a student's career. The advanced education goals are most appropriately acquired using the foundation of knowledge gained from the general education goals and progression through the major. Courses can be used to satisfy one Core goal at a time but may satisfy a major requirement and a core goal. To learn more about courses that satisfy the KU Core visit credittransfer.ku.edu

All KU Core Goal requirements will be fulfilled by program requirements.

It is the STUDENT'S RESPONSIBILITY to check for updates to all transfer information. This transfer guide is provided as a service and is updated as needed. Degree requirements at the four-year colleges are subject to change by those institutions. To ensure you have the most accurate up to date information about the program, it is imperative you meet with an advisor at the transfer institution.
