

The RN to BSN Program at the University of Kansas provides JCCC Associate of Applied Science (AAS) nursing program graduate a seamless pathway to the completion of the BSN degree. The RN to BSN consists of 120 credit hours, 60 of which are primarily liberal arts and science courses. The remaining 60 credits required make up the nursing major. Credit for the nursing major courses is earned through a combination of portfolio examination of AAS coursework and KU BSN coursework. The course list below details the 60 credit hours of liberal arts courses required prior to matriculation into the RN to BSN program at KU.

- **Admission Requirements:** Applicants must provide proof of a current RN license. A total of sixty (60) semester hours of preparatory work at an accredited liberal arts college with a minimum grade point average of 2.5 is required. Courses with grades of "D" or "F" do not count toward the 60 hours. Admission is competitive; applicants are not guaranteed admission. Check the website for additional information.
- **GPA Calculation:** When calculating GPA, all non-vocational and non-remedial courses from all colleges and universities attended are considered. With the exception of intermediate algebra, remedial courses are not factored into the GPA. When a course is repeated, both the original and the new grade are factored into the GPA.
- **Application Deadline:** To have an application considered for admission, all parts of the application (including transcripts and references) must be submitted by the deadline appropriate for your anticipated start date. The following deadlines should be observed: November 1 for spring semester admission, April 1 for summer session admission, and July 1 for fall semester admission.
- **Pass/Fail Policy:** Not acceptable for JCCC courses.

It is the STUDENT'S RESPONSIBILITY to check for updates to all transfer information. This transfer guide is provided as a service and is updated as needed. Degree requirements at the four year colleges are subject to change by those institutions. To ensure you have the most accurate up to date information about the program, it is imperative you meet with an advisor at the transfer institution.
