Admission Requirements

The following criteria are considered by the Admission Committee in the selection of students:

- Graduation from an accredited high school or the equivalent (GED). Note: students who are home-schooled must earn GED to be considered.
- Completion of a minimum of 50 of 60 semester hours of general education college coursework, including two of the four required natural science courses (Anatomy with lab, Chemistry with lab, Microbiology with lab, Physiology with lab).
- Have the required science courses that are no older than five years.
- Have not repeated required natural science courses more than one time.
- On track to complete all general education requirements by start of courses (August for fall start; January for spring start). Students who do not meet these requirements by the stated time will forfeit their position in the designated class to which they've been admitted. Admission into one nursing class does NOT confer extended admission into future nursing classes.
- A minimum grade of "C" and a minimum GPA of 2.70 on a 4.0 scale for all General Education Nursing Support coursework.

Applicants are considered for admission based on their potential to complete the program, their possession of necessary functional abilities, and their ability to meet the standards to apply for nursing licensure.

Application deadlines:

- Fall start - December 31 of the year prior to admission
- Spring start – August 1 of the year prior to admission.
- Application information is available at <https://www.rockhurst.edu/nursing/how-to-apply>
- Admission is selective and fulfillment of minimum criteria does not guarantee acceptance.
- Tuition and fees are approximately \$37,7000 for the entire two years; books are additional.
- Applicants can schedule a time to meet with an admissions representative before or after application.

It is the STUDENT'S RESPONSIBILITY to check for updates to all transfer information. This transfer guide is provided as a service and is updated as needed. Degree requirements at the four year colleges are subject to change by those institutions. To ensure you have the most accurate up to date information about the program, it is imperative you meet with an advisor at the transfer institution.

Nursing Requirements (all students)

Saint Luke's courses	Hours	JCCC Courses	Hours
Humanities (12 hours)			
Written Communications	6	ENGL 121 Composition I* ENGL 122 Composition II*	3 3
